The Omushkegowuk Declare and Affirm that:

We never surrendered our Homelands

Our goal is to provide a better life for our children and all future generations

Government action and resource development on our Homelands requires consent of the

Mushkegowuk First Nations

This is an opportunity for the governments to correct the wrong

Our inherent rights predate the Treaty and continue to provide the Omushkegowuk with empowering natural laws to be a self governing nation

For the survival of the Omushkego, the sacredness and understanding of the real Treaty directs the Omushkegowuk to re-build our self governing nation by regaining control and management of our Homelands and resources
